

ODE EMIS Conference Call Summary

4.18.22 Notes provided Naja Bailey (META) and Catherine Wright (NEONET)

March D Follow-Up Appeals – Newsflash went out this morning regarding the FY22 CTE March (D) Follow-up Data Appeal opening today through April 29^h. If there are issues with your March data, you can correct data through the appeal.

Assessments - Later this week, the last of the assessment collections will be opening up. District testing is finishing, so they know which students didn't test. This is a chance to get ahead of things and possibly start working on your score, not reported reasons.

Student Collection - Wrapping up the 2TRAD collection, which closes Friday, April 29^h. The second window isn't really used for too much like Federal reporting, but it's a good idea to get things in good shape for the final reporting window. The final reporting window (3TRAD) is scheduled to open on May 5^h.

OAEP – Several presentations from ODE staff like Graduation and how EMIS data ties into Graduation and the progress towards graduation module, ODDEX, update, General Update and will have an EMIS change presentation. There will also be other presentations from ODE staff as well.

Upcoming schedule

ODE ITC Call – Monday, May 2, 2022 – CANCELLED due to the OAEP Conference
ODE Change Call – Wednesday, May 11, 2022, at 11:00 am
