

# Zoom Desktop App - Virtual Background

**1** Select the settings/gear icon

**2** Select Virtual Background and click the “+” button to upload a new background

**3** The new background is added and ready for use with your video calls.

\*Note that the background will appear backwards to you to correct to other viewers.

\*Also - Windows users will need a green screen and must click the “*I have a green screen*” option at the bottom to use this feature.

## Available for

- Mac Desktops
- iOS (iPhone 8, 8+, X) (iPad Pro 5th/6th gen and iPad 9.7)
- Windows Desktops (green screen required)
