

Welcome to the Management Council Community

ODE EMIS conference call notes.

Manuals for districts, supervisors and employees, and for using IPDP.

Instructions for resetting your Active Directory password.

To see all community spaces, you must login. If you do not have a login, contact your ITC.

Announcement regarding support for IE for Community:

In 2015 Microsoft released Edge as the browser to supersede Internet Explorer (IE). Since then IE has not received major updates, or added support for many modern web standards. [Microsoft recently discouraged the use of Internet Explorer as a default browser.](#)

The makers of our Community software have made this statement: To allow us to continue to take advantage of modern web standards to deliver improved functionality and the best possible user experience across all of our products, we have decided to end support for IE11.

What does end of support for IE11 mean?

End of support means we will not fix bugs that are specific to IE11, and will begin to introduce features that aren't compatible with this browser.

What this means for you

In preparation for the end of support dates, we recommend switching to one of our [supported browsers](#), such as Microsoft Edge, Google Chrome, or Mozilla Firefox.
