Frequently Asked Questions

Check here to view questions, answers, and other information regarding the Student Information Request for Proposals (SIS RFP)

Date	Question	Response
02/01/2022	What are critical dates for the RFP?	• RFP Published on 02/01/2022 • Intent to respond message due 02/08/22 • Inquiry period ends on 02/22/2022 • Responses due 03/01/2022
02/04/2022	1. Is the goal to select preferred vendors which then the districts can choose which SIS vendor to select? Or, is the goal to select one vendor and all member districts would then use that one vendor's student information system.	Ohio is a local control state. Ultimately, it is up to each individual ITC and the districts served to determine their path moving forward. Selecting a single vendor is possible, but the other outcome (a set of preferred vendors) is more likely.
02/17/2022	2. To whom will Management Council make pricing available? Will it be limited to full members of ITCs? Will it be available to private schools and/or community (charter) schools?	We would anticipate the pricing would be good for any Management Council or ITC member entity. It would be available to private and/or community schools if they were customers of an ITC.
06/30/2022	3. What was the outcome/resolution of this process?	The RPF has been successfully concluded. The Management Council did *not* make an award to a single vendor.
